Competent Authority: The Commission de Surveillance du Secteur Financier is responsible for supervising the manufacturer in relation to this Key Information Document.

Date of production 23/04/2024

## What is this product?

#### Type

This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities (UCITS).

#### Term

This sub-fund has no maturity date. However, the board of directors may decide to close the sub-fund under certain circumstances.

#### Objectives

The sub-fund seeks to produce positive returns from a diverse portfolio of developed market European credit positions generated from a combination of interest received and trading gains.

The sub-fund will adopt a highly flexible approach allowing the investment manager to allocate capital across a number of sectors of the credit market (each an "Asset Class"), each being managed by dedicated portfolio management and research teams. The initial Asset Classes are Financials, Corporates, Asset-Backed Securities ("ABS") and Special Opportunities. The sub-fund may invest in a wide variety of credit instruments including bonds, notes, convertible bonds and/or hybrid capital instruments (such as contingent convertible instruments ("CoCos")) and structured credit instruments including collateralised loan obligations ("CLOs") and ABS (including consumer ABS, residential mortgage backed securities ("RMBS") and commercial mortgage backed securities ("CMBS")).

The sub-fund may use derivative instruments such as options, single name or index credit default swaps ("CDS"), total return swaps ("TRS") and forwards for investment purposes or to optimise or reduce exposure in conjunction with the investment manager's view.

The credit instruments listed above may embed financial derivatives and/or structural leverage.

While both long and short positions may be employed, it is expected that the portfolio will be predominantly long.

Foreign exchange and interest rate exposures resulting from the credit instruments listed above will be hedged through the use of financial derivatives.

The sub-fund will aim to be diversified in terms of industry, geographic region, sector and rating. The sub-fund will not invest in assets with a credit rating of CCC or below.

**Benchmark:** The portfolio is actively managed on a discretionary basis without reference to a benchmark.

#### Intended retail investor

This sub-fund is suitable for all types of investors who can accept short term losses. This sub-fund may not be appropriate for investors who plan to withdraw their money within 3 years. The sub-fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this sub-fund.

#### Other information

**Depositary:** Banque de Luxembourg

**Dividend income:** This class is a capitalisation class meaning that income is reinvested.

**Conversion right:** The investor has the right to convert his investment in shares in one sub-fund for shares in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

**Segregation:** The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

**Additional information:** Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of shares may be obtained free of charge from the management company or on [www.ram-ai.com](http://www.ram-ai.com). The prospectus and the periodic reports are prepared for the entire fund and are available in English. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 2024 and this share class in 2024.

The currency of the share class is expressed in EUR.

## What are the risks and what could I get in return?

### Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

**Be aware of currency risk.** You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Credit risk in debt instruments, liquidity risk and risk linked to financial derivatives.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

### Performance scenarios

**Recommended holding period: 3 years**

**Example investment: 10,000 EUR**

		If you exit after 1 year	If you exit after 3 years (recommended holding period)
<b>Scenarios</b>			
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>		
<b>Stress</b>	<b>What you might get back after costs</b>	6,950 EUR	7,450 EUR
	Average return each year	-30.5 %	-9.4 %
<b>Unfavourable</b>	<b>What you might get back after costs</b>	8,760 EUR	9,070 EUR
	Average return each year	-12.4 %	-3.2 %
<b>Moderate</b>	<b>What you might get back after costs</b>	9,940 EUR	10,620 EUR
	Average return each year	-0.6 %	2.0 %
<b>Favourable</b>	<b>What you might get back after costs</b>	11,610 EUR	11,590 EUR
	Average return each year	16.1 %	5.0 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment between March 2017 and March 2020, by referring to a benchmark.

Moderate scenario: This type of scenario occurred for an investment between November 2016 and November 2019, by referring to a benchmark.

Favourable scenario: This type of scenario occurred for an investment between March 2020 and March 2023, by referring to a benchmark.

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if RAM (LUX) TACTICAL FUNDS II is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Banque de Luxembourg. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 3 years
<b>Total costs</b>	504 EUR	992 EUR
Annual cost impact (*)	5.0 %	3.1 % each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.1% before costs and 2.0% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	3.0% of the amount you pay in when entering this investment. Subscription fees are payable to the entities and agents involved in the distribution and placing of the shares by prior agreement and are not retained by the fund.	300 EUR
<b>Exit costs</b>	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
<b>Management fees and other administrative or operating costs</b>	1.7% of the value of your investment per year. This is an estimate based on actual costs over the last year.	169 EUR
<b>Transaction costs</b>	0.4% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	35 EUR
Incidental costs taken under specific conditions		
<b>Performance fees</b>	There is no performance fee for this product.	0 EUR

The conversion of part or all of the shares is free of charge.

## How long should I hold it and can I take money out early?

**Recommended holding period: 3 years**

You should be prepared to stay invested for 3 years. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible on each full bank business day in Luxembourg. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

## How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person that advised on or sold this product, you can use different communication channels: by e-mail to [ramlux@ram-ai.com](mailto:ramlux@ram-ai.com), by letter to 51, avenue John F. Kennedy, L-1855 Luxembourg, by phone calling the number +352 28 56 14 1.

In all cases, the complainant must clearly indicate his/her contact details (name, address, phone number or email address) and provide a brief explanation of the claim. More information is available on our website [www.ram-ai.com](http://www.ram-ai.com).

## Other relevant information

The prospectus, the latest version of the Key Information Document as well as the latest annual and semi-annual report, may be obtained free of charge on [www.ram-ai.com](http://www.ram-ai.com).

*Past performance and previous performance scenarios:* Historical returns are not yet available. Previously published performance scenarios, updated on a monthly basis, are available on <https://www.yourpriips.eu/site/97609/en>.
